Backlions connects the people who book a show, the people who tour it and the people who build the stage. One shared record carries every date from the booker's option to the tour manager's callsheet, the venue's house patch and the changeover list on every crew phone.

HOW A SHOW MOVES THROUGH BACKLIONS

NOBODY RETYPES THE SHOW.

01
BOOK & PLAN
Dates, venues, promoters and the tour party, with deals kept to the organisation that holds them.

BOOKERS · AGENCIES

02
ADVANCE
Rider, venue contacts and day schedule come together into the callsheet for band, crew and venue.

TOUR MANAGERS · BANDS

03
PREPARE
The venue freezes the rider. Sound, lighting, backline and stage each get their own pages.

VENUES · CREWS

04
SHOW DAY
Running order and changeovers on every phone. Musicians ask for monitor tweaks from theirs.
